2017-18 BUDGET OF THE STAMFORD PUBLIC SCHOOLS

Superintendent's Operating Budget Recommendation – January 12, 2017

Budget Process

The budget process for the district began in October 2016 with the Superintendent providing general guidelines to all administrative staff to begin developing a budget for fiscal year 2017-18 that addresses program needs in a fiscally responsible manner and, to try to develop a budget with the same or less dollars than the 2016-17 fiscal year. Starting in December 2016 with input from Central Staff and Board of Education Principals and Administrators, the Superintendent's Operating Budget Request was assembled. At the same time, meetings were held with the Citizens Budget Advisory Committee "CBAC" and cabinet members including the Assistant Superintendent- Elementary, Assistant Superintendent- Secondary, Executive Director of Finance, Executive Director of Human Resources, Executive Director of Research, and Director of Grants to review all areas of the budget, to link budget requests to district goals, and determine priorities for 2017-18. Each program and building was thoroughly reviewed for staffing needs, trends, and alignment with district goals. Further reviews were done in late December/early January, with the Superintendent making the final determination for inclusion of items in the Operating Budget Request.

The goal for 2017-18 was to keep the budget request as fiscally responsible as possible while addressing district goals. The Superintendent's Operating Budget Recommendation is **\$273,363,994**; a **3.58%** increase over the 2016-17 budget.

Board of Education Goals

Each year, the Board of Education and Superintendent of Schools work to develop Board and Superintendent Goals that support the district's mission "to prepare each and every student for success in the 21st century." The operating budget and all grant budgets are aligned to these goals.

District Goals for 2016-17

District Goal 1:	To graduate all students ¹ and to ensure that all are admitted to a higher education program or institute ²
District Goal 2:	To enhance the professional practice of teachers and leaders to promote greater student achievement and attainment using PGDE and TEAM frameworks
District Goal 3:	To engage parents and caregivers in nurturing each student's growth and understanding of PK-16 school systems to increase student educational achievement and attainment
District Goal 4:	To engage Education Council and District Leadership Team in creating a shared understanding of the importance and need for a robust curriculum management system
District Goal 5:	To engage community in the development of a shared vision and strategic plan to realize the community's vision for our students, staff, supporters and schools

¹ Graduation Rate includes students who complete high school through Adult Learning programs

² Higher education program or institution includes: apprenticeship program, community college, 4-year college

Other Operating Budget Considerations

To support the Board of Education's goals on the previous page and attend to other factors that influence costs and programs, the following items are included in the 2017-18 Superintendent's Budget Recommendation:

- A predicted enrollment decrease of 132 students; .8%;
- To keep pace with Special Education IEP requirements, Pupil Services and ASD program needs, the addition of 31.2 positions (10.2 Teachers, 22 Para-educators and the consolidation of a Data Analyst position) at a cost of \$3,097,000;
- To align Board of Education and City funding practices and budget gross cost rather than net, the addition of \$1,358,000 to the OPEB budget;
- To provide upgrades to the Curriculum Department and compensate for reductions in grant resources, the addition of \$692,000 to the budget;
- To cover fluctuations in building enrollment, the addition of 3 contingency positions to the budget at a cost of \$244,000;
- To cover fluctuations in the English Learner program, the addition of 2 positions to the budget at a cost of \$128,000;
- To cover the start-up cost of the EID (Energy Improvement District) program, the addition of \$110,000 to the budget;
- To address student needs, the addition of an International Baccalaureate "IB" program and Early College Academy program at Stamford High School at a cost of \$69,000;
- To examine the role of the SRBI teacher and develop a position that addresses the recommendation to ensure all students who struggle receive appropriate support, nine existing positions in the operating budget were moved to grant funding, reducing the operating budget by \$595,000;
- To adjust staffing to anticipated enrollment and course offerings at the building level, the reduction of 15 positions and \$727,000;
- To increase site budget allocations by 5% the addition of \$58,000 to the budget

The 2017-18 Superintendent's Operating Budget Recommendation is **\$273,363,994**; a **3.58%** increase over the 2016-17 budget.

Budget Development Assumptions

Enrollment

The district's projection for student enrollment is shown in Section 4 of this document. A bar chart with actual enrollment from 1980-81 to 2016-17 along with an enrollment projection for 2017-18 are shown for your convenience. Enrollment projections were assembled with the assistance of district staff and consultants to provide a comprehensive analysis of enrollment trends.

The enrollment at the building level is predicted to decrease by 133 students: (182) at the elementary level, +23 at the middle school level, +25 at the high school level, and +1 in the Pre-Kindergarten program. Generally our enrollment projections have been quite accurate.

For 2017-18, the total number of students (including in-district, out-of-district, and home instruction) is expected to decrease by 132 to 16,040 students; a decrease of .8%.

Revenue

Included in Section 6 of this document is an estimate of Education Revenues to the Stamford Public Schools and the City of Stamford. The operating budget for the school district in the amount of **\$273,363,994** is partially offset by state entitlements (such as ECS) and other revenues that are paid directly to the City. The state entitlements and other revenues are estimated to be \$8,410,729. When these funds are subtracted from the operating budget request, the estimated cost to the taxpayers is \$263,953,265.

Additional funds are obtained directly by the district from Federal entitlement grants, state grants, corporate grants, and private grants. For 2017-18, we have taken a conservative approach when budgeting grants with most grants projected at the same level as 2016-17. Grants without firm commitment for 2017-18 were removed from our estimates. Our projections for all grants are shown in section 9 of this document. Additionally the district is expecting a retroactive Medicaid Revenue settlement that will be used to assist with Special Education costs.

Grants are usually earmarked for specific purposes and are generally intended to "supplement and not supplant" local operating budget funds.

Program Budgets

In Section 7 of this document, the program budgets are displayed for your convenience. We have continued to simplify the program budgets as much as possible and provide notations to show changes in staffing and budget amounts to make this document more user-friendly.

Salaries and Wages (100)

The salaries and wages included in this budget are based on settled collective bargaining agreements and “best estimates” for unsettled contracts.

Based on the current trend, new teacher positions have been budgeted at \$66,151 plus benefits and paraeducators have been budgeted at \$21,218 plus benefits.

Additionally, the salary accounts have been reduced by \$2,300,000 for estimated “vacancy savings” due to staff turnover from retirements and resignations, unfilled positions, and degree level changes. Based on historical trends, for 2017-18 we are predicting 60 resignations, 30 retirements, 8 leaves of absence, and 10 teachers awaiting certification.

The 106 Maternity Leave account and 111 Long Term Leave account have been budgeted based on trend.

Employee Benefits (200)

This portion of the budget includes the cost for employees’ medical and dental insurance as well as the employer’s share of Social Security costs. For 2017-18, the district is budgeting for a self-insured medical, dental, and prescription drug plan with overall caps on Board of Education liability as agreed to in a Memo of Understanding (MOA) accepted by the Board of Education on October 24, 2006. The teacher’s and administrator’s unions are currently using individual Health Savings accounts (H.S.A.’s). Additionally, based on discussion with the city OPM department, the cost of retiree insurance claims has been moved from the 202 Health Insurance account to the 231 Other Post Employment Benefit “OPEB” account. Based on our latest projections and changes noted above, the cost of Health Insurance will decrease by \$2,373,495 and the cost of OPEB will increase by \$3,750,000. Further details of all the line items are shown in Section 10, page 10 of this document. Other groups may follow this trend but since negotiations are still pending, they are not yet reflected in this document. The non-certified employees will remain on the City’s health insurance plan. The cost is charged directly from the City to the Board of Education and is expected to remain level at 2016-17 amounts.

Revenue credits are included in the Board of Education budget for four items: retired teachers paying a portion of their insurance cost to the Board of Education, Teacher Retirement Board payments to the Board of Education, premium cost sharing for active employees and grant offsets to the insurance account for grant funded employees.

For 2017-18, the BOE Claims reserve is estimated to remain at 9% of claims (the target range was set at 5-9% of claims.)

Two other large cost drivers for the Board of Education relate to Pension and OPEB (Other Post-Employment Benefits) costs. Valuation for Pension cost is performed by our actuary, Hooker and Holcomb, and is still pending. For budget purposes, and 8.2% increase was assumed. For Other Post-Employment Benefits (OPEB), the health insurance claims for retirees has been moved from the Health Insurance 202 account to the OPEB account. The result is that OPEB increases by \$3.8m and Health Insurance decreases by \$2.3m.

Educational, Rehabilitative, and Legal Services (300)

This grouping includes outside services, which are primarily rehabilitative and legal in nature. For 2017-18 this group has been reduced by \$551,000 due to the reclassification of \$310,000 of district-wide software from the 322 account to the 643 account. Additionally, cost reductions were also budgeted in 324 Legal Fees and 321 Contracted Services.

For 2017-18, Trailblazers Alternative Middle School Program (\$514,047) and Stamford Academy (\$495,983) are included in the 321 Contracted Services Account. These amounts have been kept level from current funding levels.

The 323 Pupil Services Account includes funding to pay for Constellation to provide physical and occupational therapy services and other services mandated by Individual Education Plans (IEPs). Students who exceed 4.5 times the average per pupil cost are reimbursed by the State Excess Cost Grant. Because of this, \$4,500,000 has been used to reduce the 560 Tuition account.

Building Upkeep and Repairs (400)

The district continues to employ the services of AFB to manage the building maintenance and property service functions of the district although the district is currently reviewing proposals from other vendors. Additionally, AFB and City Engineering (with the assistance of the city energy consultant McEnergy) help to plan all utility accounts and obtain the best prices for commodities through the competitive bidding process. They also provide budget estimates for the BOE utility accounts (Electricity, Gas Non-Heat, Water, Gas Heat, and Oil Heat) based on the most recent bid information. Most of the line items in this area are budgeted close to 2016-17 levels.

Transportation, Out-of-District Tuition, and Other Services (500)

This group is primarily composed of the student transportation and out-of-district tuition accounts.

The transportation budget was built on the services provided by First Student. We are currently running 144 vehicles and have added 4 new vehicles for 2017-18 for a total of 148. Additionally, the contract will increase by 7.5% from the vendor. The additional buses will be used for Wright Tech, Westhill, Northeast Bilingual program, in-district Special Education and Apples vehicles.

A portion of the district's transportation cost is funded through the Magnet School Transportation grant which helps out of town students to attend Rogers International School and AITE.

The Out-of-District Tuition Account provides funding to other institutions for Special Education students who are required to attend based on their Individual Education Plan (IEP). The law guarantees each Special Education student a "free, appropriate, public education" and because of this, sometimes a school or institute outside the Stamford School District better meets his or her needs. For 2017-18 the number of out-of-district students is expected to increase to 245 students and the tuition fees from the receiving schools is expected to increase by 2%. Over the last two years significant efforts have been made by the district to increase state revenue and reduce expenditures in this account. Current dialogue with the state anticipates capping the Agency Placement and Excess Cost Grants at 75% of their calculated funding. The gross tuition cost is offset by Agency Placement and Excess Cost Grant revenue in the amount of \$4,500,000 and IDEA 611 revenues of \$147,000. The final budget of \$12,757,199 is an increase of \$947,199 (8%) from the 2016-17 amount.

Supplies, Materials, and Heating Fuels (600)

The supply budget for the school system includes both classroom-based consumable supplies and also heating fuels such as oil and natural gas. Each of the schools is given a per-pupil allotment based on their estimated pupils for 2017-18 to cover items such as paper, pencils, copy paper, and textbook replacements. Items such as textbook adoptions, heating oil, and natural gas are managed and budgeted centrally and not included in the "per student" allocation formula. The proposed formula is an increase over the existing allotment as follows:

	Current Rate per Student <u>2016-17</u>	Rate per Student <u>2017-18</u>
Elementary Schools	\$63	\$ 66
Middle Schools	\$79	\$ 83

Total 2017-18 Operating Budget	\$273,363,994	2,062.3	3.58%

The “per-pupil” allotment is discretionary funding allocated to each school and managed by the principal based on site needs. To date, the site budget allocations were prepared on a “tops down” basis under the assumption that the building principals would have a chance to re-allocate site money via budget transfer. The formula stated above follows a practice adopted in prior years. The allocation of funds based on students allows the schools to fund all basic supplies for regular and Special Education as well as “supply-intensive” subjects such as Art. The district adheres to the practice of “dollars following students” and more or less students may necessitate an adjustment to the budget. We will maintain a margin of +/- 25 students at each building for budget purposes.

Additionally, to maintain a budget factor of 1.3 times the normal per pupil supply allocation, a supplement of \$46,700 was added to the budget for English Learners.

Gas and oil heat are also included in this section of the budget and are expected to remain close to 2016-17 levels. The estimates in this area were formulated in conjunction with AFB Management and City Engineering.

Equipment (700)

The equipment account is used to fund purchase of items with a unit cost of over \$1,000 and a useful life of more than one year. The budget contains actual requests made by the schools and departments for equipment and an estimate of district furniture needs.
