Mr. Earl Kim
Superintendent of Schools

To Whom It May Concern:

As part of the district's SPS Video Challenge, students and/or staff may be shooting video footage in your child's school in the coming weeks. Students will not be identified in the videos, unless separate approval is obtained. The contest is part of the district's effort to increase public awareness of, understanding of and engagement in the new vision and mission. The most exceptional videos may be used in the future to promote the district, and illustrate active learning within your child's school building.

If you do not want your child's image to be used, you must return this notice to the school, no later than Friday, March 30, 2018.
